Brochure display space is reserved for Chamber members only. Space is limited and will require the following parameters for brochures to be displayed in the Chamber office:

- Brochures must be paper stock of sufficient weight so that the brochure does not “wilt or fold over” in the display racks.
- Size of brochures should measure nine (9) inches in height and four (4) inches in width (***standard vertical format brochure rack size***) with the main message or name at the top of the brochure. Brochures of other sizes will not be displayed.
- Brochures that are not approved for display in the brochure racks, but are beneficial to the staff for answering inquiries will be kept on hand for use as reference materials.
- The title of your business should be in the upper third of the brochure for display purposes.
- Professionally produced and printed brochures are preferred.
- Storage space is limited and advertisers are responsible for self-monitoring and sufficient inventory.
- Every effort will be made to display approved brochures. (***Should rack space be limited, brochures will be rotated on an equitable basis.***)

The Chamber staff will be happy to provide the resources needed to help design or print your business brochures.
