

June 27-29, 2010
George R. Brown Convention Center
Houston, Texas

HOW DOES IT WORK?

There are two basic methods of shipping your display materials and equipment to a trade show:

Method 1: Shipping to the Warehouse

By selecting this method of shipping, you can ship your materials to the freight company's warehouse to arrive between **May 26, 2010 and June 16, 2010**. **Materials arriving after June 16, 2010 will be received at the warehouse with an additional after deadline charge.** To qualify for this type of shipping, the materials must be crated, boxed or on skids. Included in this service is acceptance at the warehouse, delivery to your booth, removal / storage / return of empty packing materials and loading of materials on designated carriers. The big advantages of the method are that the shipping time does not have to be exact since you have an extended window and you have more flexibility on the carrier used.

Method 2: Shipping Direct to the Convention Center

To use this method, your shipment must arrive during exhibitor move-in. There are no personnel at the George R. Brown Convention Center available to accept shipments prior to our official move-in days. Exhibitors who have targeted move-in days should schedule shipments to arrive early the day of their move-in. **Non-targeted exhibitors should schedule shipments to arrive early on Friday, June 25, 2010.** This method must be used for uncrated and loose material shipments. This service includes acceptance of materials at show site, delivery to your booth, removal / storage / return of empty packing materials and loading of materials on designated carriers.
