

Business Wire: World Renowned Lean Manufacturers Share Their Success Stories at JCI...

## **World Renowned Lean Manufacturers Share Their Success Stories at JCIT International's Annual Demand Flow Technology Users Conference August 20-22, 2003**

Business Editors/High-Tech Writers

ENGLEWOOD, Colo.--(BUSINESS WIRE)--July 14, 2003

Roll-out of new Users Group Website and JCIT Partner Presentations

Highlight Annual Demand Flow(R) Technology Users Group Meeting

The annual event, hosted by JCIT and sponsored by JD Edwards, includes a full day-and-a-half of speakers from some of the best Lean and Flow Manufacturing practitioners in the world. These sessions focus on sharing the lessons learned over years of implementing Demand Flow(R) Technology in many diverse industries.

A Decade of Demand Flow, presented by Tommy Little, NACCO Material Handling Group.

Demand Flow and Six Sigma Converge, presented by David Silverstein, Breakthrough Management Group, Inc. (BMG)

**Using Simulation Tools to support a Demand Flow implementation, presented by Adil Dalal, Stryker Corporation**

Applying Demand Flow Technology in a High Volume Environment, presented by Jack Doherty, Southco, Inc.

Addressing Regulated Industry Challenges with Demand Flow, presented by Eric Kulikowski, Respirationics

Overcoming Information Systems Challenges during the Transition to DFT, presented by Leon Sudtelgte, Prince Manufacturing

Implementing Demand Flow Pay for Skills, presented by Kal Nawawi, Carl Zeiss Meditech

Additional presentations on DFT real-world results will be made by Vince Botto, Steel Manufacturing, Dave Parrish, JD Edwards Terry Walsh, Portico.

New Users Group Website to be launched at Conference

With practitioners of Demand Flow (R) Technology scattered all over the world at a wide range of manufacturing companies, the need for an easy way to share experiences, advice and lessons learned is vital. During its annual meeting on Friday, August 22, the Demand Flow(R) Technology Users Group will unveil its new website, making knowledge sharing available to anyone working with this dynamic, extremely productive manufacturing management tool.

Other event highlights include the opening night networking reception, keynote dinner, and off-site golf tournament. As part of the \$495 conference registration fee, attendees receive a free one-year membership to the Demand Flow Users Group.
