# The “brand new” PANAMA CANAL ..

The Panama Canal Expansion was the largest infrastructure project since the Canal's opening in 1914. Considered and analyzed for a decade with more than 100 studies, the Expanded Canal provides the world's shippers, retailers, manufacturers and consumers with greater shipping options, better maritime service, enhanced logistics and supply-chain reliability.

Since its inauguration on June 26, 2016, the Expanded Canal increases the waterway's capacity to meet the growing demand of maritime trade using larger vessels, which means that the Panama route provides important economies of scale. The Expansion included the construction of a new set of locks on the Atlantic and Pacific sides of the waterway, creating a third lane of traffic and doubling the cargo capacity of the waterway. It also included the creation of the Pacific Access Channel, improvement to the navigational channels, and improvements to the water supply.

While the expanded locks are 70 feet wider and 18 feet deeper than those in the original Canal, they use less water due to water-savings basins that recycle 60 percent of the water used per transit. In line with its commitment to customer service, the Panama Canal will continue to provide the world with value for another century and beyond.

You will personally experience the complete transiting of the marvelous new construction when you “go away” with us on this exceptional travel opportunity! Please Go Away™ Vacations has prime space on one of the only very few cruise ships that are allowed to provide this experience.

At the time of this brochure being created in November of 2017, approximately 45% of the prime spaces we are holding for this cruise were already secured by intrepid travelers desiring to add this accomplishment to their travel achievements. Some of them have cruised the Canal previously, but want to add this new accomplishment to their travel achievements.

Secure your spaces before it is too late. When you do you are protected by our exclusive 100% RESERVATION DEPOSIT REFUND GUARANTEE and our always provided travel protections.

With this complete-transit of the PANAMA CANAL experience you will also explore exciting and educational ports of call in on the Pacific Ocean side, the Atlantic Ocean side, and the Caribbean Sea. These are highlighted for you elsewhere in this brochure.

**IMPORTANT:** With Please Go Away™ Vacations' all-inclusive and no additional or surprise pricing, shore excursions are “included” for you in each of these cruising ports of call.

Ask questions. When satisfied, reserve before spaces are gone.

## The Panama Canal

- Ships traveling between New York and San Francisco save 7,872 miles by using the Panama Canal instead of going around Cape Horn.
- The Atlantic entrance to the Canal is 22-1/2 miles west of the Pacific entrance.
- Not a single pump is used to move the millions of gallons of water necessary to transport a ship - it's all done by gravity.
- Instead of "going down" ships are actually raised and lowered a total of approximately 180 feet (85+/- raising and 84+/- lowering) as they transit the Canal.
- More than 4.5 million cubic yards of concrete went in to the construction of the locks and dams.
- If materials originally excavated to build the Canal were put on a train of flat cars, it would encircle the world four times.
- The locks of the Canal are 7 feet thick.
- More than 60 millions pounds of dynamite was used to excavate and construct the Canal.
- The dam constructed across the Chagres River in Gatun created Gatun Lake, the largest manmade lake in the world at that time, and created the source of water from which all water flows to operate the Canal.
- Excavation of the Canal was equal to digging a 10 feet deep x 55 feet wide trench from California to New York.

### The EMERALD PRINCESS (Princess ships are of Bermudan and British Registry) is one of only very few ships allowed to transit the “brand new” Panama Canal

On the luxurious Emerald Princess you will explore the waters of the seas and oceans in the finest manner possible. A “small ship” feel and personality have been preserved on this luxurious floating five-star resort, where you always awaken in a new and exciting place. You will experience the next generation of Personal Choice Cruising onboard one of the newest and most innovative ships yet. She boasts many-many balcony staterooms (worth the small extra costs if they are your choice) from which to observe and “soak in” the wonders of man and nature. Just imagine enjoying a leisurely breakfast on your private balcony while basking in pleasant temperatures, wearing your cuddly soft provided robe and a combination of man made and natural wonders. Memories will be created and shared that will never be forgotten.

### Experience the splendor of a “complete transit” of the Panama Canal

Don't be disappointed by seeing less of the Canal than you expect. This can easily happen with other programs, especially the itineraries that go just part way through the Canal and then turn around and come back out the same way they entered. Such shortened experiences normally enter from Cristobal, go to Gatun Lake, and turn around - missing most of the Canal (see map of Canal at left - you can see you barely experience 1/10th of the Canal when you select this dramatically shortened cruise experience). We have selected this itinerary because of the many unusual and exciting ports of call, combined with the fact that a “complete transit” of the Canal will be experienced. You will literally enter the Canal from the Atlantic Ocean/ Caribbean Sea and exit it into the Pacific Ocean. By having this complete experience you will have seen “up close” the working of “all” the different locks of this man made marvel. You will have a greater appreciation and understanding of how the majestic feats of lifting huge ocean-going ships more than 180 feet can be accomplished without the use of a single water pump. By experiencing a “complete transit” you will understand why the unusual plan created by the United States succeeded when the efforts of France and others failed. We invite comparison of our cruise with all others. When you compare the total of what you are paying for and receiving “apples to apples” we are confident you will see you are getting the most for your money; and are seeing and doing the things that you desire, when you reward yourselves by “going away” with Please Go Away™ Vacations.

### Connecting the Atlantic and Pacific - a dream of almost 400 years in the making

As the mammoth gates close and the water pours into the lock, the 92,000-ton ship on which you stand rises effortlessly. The Panama Canal was first considered in the early 16th century by King Charles V of Spain. 26,000 lives were lost during its construction. Five American presidents — Ulysses S. Grant, William McKinley, Theodore Roosevelt, William Howard Taft and Woodrow Wilson — played a role in the building of the Canal. It took the American government 10 years and \$383 million to finally complete. The Panama Canal is the “eighth wonder of the world”. The engineering feats employed - like cutting through nearly nine miles of solid granite at the Continental Divide and the use of gravity alone to pull water for the locks from Gatun Lake - will leave you filled with admiration.

### Personal Choice Dining

Princess is the only cruise line to offer a choice of either Traditional Fixed Seating or Anytime Dining. You can also have Ultimate Balcony Dining for an elegant breakfast or dinner served in the privacy of your balcony stateroom (Balcony Dining and Specialty Dining often require an additional charge -- be advised). Your “personal choices” are:

- ⇒ **Traditional Dining.** Have dinner with your friends and family in a formal dining room at the same time each night, with service provided by the same waiter throughout your cruise experience.
- ⇒ **Anytime Dining.** Choose your dining style -- whether you prefer to dine alone or with newfound friends, anytime between 5:30 p.m. and 10 p.m., for a more flexible dining experience.
- ⇒ **Specialty Dining.** Princess also offers a choice of distinctive specialty dining options. Reservations are recommended for these popular restaurants and because they are a special service, a cover charge will apply.
- ⇒ **Casual Dining.** Feel like something quick? Want to enjoy a more spontaneous dinner? Lunch near the pool? You'll still find high quality food at these more casual restaurants; 24-HOUR BUFFET ..... Late night bistro ..... Wine and caviar bar ..... Patisserie ..... Pizzeria ..... Burger and hot dog grill ..... Ice cream bar ... Complimentary 24-hour room service.
