

## "AS YOU LIKE IT" TRAVEL IS A "NO COST" SERVICE OF PLEASE GO AWAY(TM) VACATIONS!

- It has "absolutely nothing" to do with our personally escorted and value added group tours!
- It is "1 of 3" business division travel pillars of Please Go Away(tm) Vacations business operations. The other two pillars are **"FEATURE" TRAVEL** and **"PRIVATE LABEL" TRAVEL.**
- It provides 48% of our business revenue.

Hundreds of knowledgeable travelers take advantage of its "no extra costs" benefits annually, while receiving unmatched personal service, before, during, and after their travels from a full time team of travel professionals.

**Important for you to know:** As a full service, full time professional travel organization, Please Go Away (tm) Vacations has every departure date of every itinerary of every quality cruise line, travel company, family resort, all -inclusive resort, etc. at the same - or quite often better - price than is available from any other source, including directly from the company or on the

internet. There's a reason for this - we'll be glad to explain why and how this is when you ask (we never cut prices to make this happen).

Compare - knowledge is strength. Then "you" make the final decision after having all the guess work removed because you know the answers.

---

### **An example of our "AS YOU LIKE IT" TRAVEL service benefitting our clients...**

*Two of our Wichita clients were traveling on their own using the services of our "AS YOU LIKE IT" TRAVEL program during the recent horrific hurricane season in the southern regions of the United States and Caribbean. Their travel plans were taking them to Albania, with a scheduled flight through Houston on Friday, September 1. They had chosen a travel program of another company and had our office book it for them, something we regularly do for our clients that prefer to travel on their own on a travel experience other than one of our personally escorted and value added tours. The problem was that the "other" travel company had issued the airline tickets and refused to try to change them until United had actually cancelled the involved flights, even though the Houston airport was more than likely going to be closed at time of travel. Taking the initiative after arguing unsuccessfully most of the morning with the "other" travel company that they should immediately act to protect our clients, and notwithstanding the fact that she technically had no right to do so because our office had not issued the airline tickets, Paula contacted the airline directly and waited on the telephone line for over three hours - from 3:20 pm until 6:55 pm - until she could talk to an airline representative. Again, she pleaded her case on behalf of our two "independent" clients and she won, being able to get replacement flights protecting our clients, even though the actual operator of the tour had refused to act. Our clients arrived in Albania at the time and on the date originally planned, even though their Houston flight was ultimately cancelled - the day of intended travel - too late to have helped.*
