

Group Travel Protections

To further benefit and protect our travelers “going away” with us on one of our personally escorted value added “FEATURE” TRAVEL departures we purchase on your behalf the group travel protection plan of Travel Insured International.

Today’s travel climate dictates the need for this type of protection more than ever before on all types of travel. The complete details of coverages we purchase on behalf of “FEATURE” TRAVEL group travelers are available in our offices and may be viewed at any time.

We have chosen Travel Insured International for a number of reasons, some of which are:

- ◆ The coverage of this plan is, in our opinion, more comprehensive and more beneficial to our travelers than any other plan.
- ◆ Cruise line and tour company protection plans are better than not having any protection, but are generally not recommended. They can be more restrictive. In addition, since our personally escorted tour programs always incorporate a number of additional activities, sightseeing, benefits, etc. that are in addition to the basic cruise line and tour company programs, you are not fully protected with their plans. Their coverages generally do not extend to protect you from losses and cancellation assessments pertaining to components that have been added to create a unique and one-of-a-kind travel experience through our “Value-Added” concept always present on a Please Go Away™ Vacations “FEATURE” TRAVEL experience.

Travel Insured International is the recommended travel insurance company of Vacation.com, North America’s largest retail travel consortium. Cheyenne Travel Agency, Inc. and Please Go Away™ Vacations are invited members of Vacation.com.

All provisions of this travel protection insurance are subject to change and to the total interpretation and application solely by Travel Insured International. Cheyenne Travel/Please Go Away™ Vacations act only as agent for Travel Insured International and for our travel clients.

As always, the entire Cheyenne Travel/Please Go Away™ Vacations team will be pleased to assist our travelers in all ways possible before, during and after your travels.

To be uninsured is to be unprotected!
