

Greetings!

It can be chilly up there, but The Last Frontier is one of the hottest destinations around! Royal Caribbean Cruise Lines is so excited, for the first time ever, to have four ships sailing Alaska for summer 2021 -- a SUPERFECTA for sure!

All are wonderful ships with amazing itineraries (and always remember the Cruisetour options on Radiance and Serenade!), but this morning I want to call out the QUANTUM VALUES on Quantum of the Seas for Summer 2021! Quantum is pricing significantly lower than her sister ship, Ovation of the Seas. Why? Because she's new to the market!
