*VAL GARDENA: The Dolomites are like no other Alps. Dramatic limestone spires, green meadows, old wooden houses: this is the popular image of the Dolomites, both Italy's and the Alps best known mountain range. Sunshine, good food, and beautiful and unique landscapes make this mountainous area of north eastern Italy a real winner. The Dolomites offer a complex system of scenic trails alongside vertical cliffs that rise straight up from lush green pastures.*

*SEEFELD: On a sun-drenched south facing plateau, at an altitude of 4000 ft, the Olympia region Seefeld boasts a spectacular location surrounded by the Karwendel Nature Park, the Wildmoos nature protection area, the majestic Wetterstein massif and Hohe Munde mountain. The Seefeld region comprises five villages and offers a vast area for walking amid a stunning, pristine natural landscape. Seefeld is located 40 minutes by train from Innsbruck.*
